

Fact Sheet

Overview:

Smithsonian Journeys is a trusted leader in expert-led land and cruise travel, offering more than 500 annual departures across all seven continents. As a vital extension of the Smithsonian's educational mission, these thoughtfully curated journeys deliver immersive experiences that reveal the authentic culture, history, and natural beauty of each destination, often providing special access unavailable to most travelers.

Travelers can choose from a wide range of programs, including small-group guided land tours (many with airfare included), cultural stays, small-ship ocean and river cruises, active journeys, private jet explorations, and tailor-made itineraries for the independent traveler. Each experience is shaped through the Smithsonian lens, inviting guests to engage more deeply with the world and create lifelong memories alongside fellow curious minds. Importantly, every journey helps support the Smithsonian's broader mission: to preserve, explore, and celebrate the stories and knowledge that define our shared past, present, and future.
